TECHNICAL SKILLS

Softwares & Tools: R, Stata, Excel, MATLAB, Rats (*basic*), Gauss (*basic*), Python (*basic*)
Statistical: Econometrics, Statistics, Time Series, Machine Learning, Visualization, Text Mining (*basic*)

LANGUAGES

Spanish: Native, **English:** Proficiency, **Italian:** Intermediate

SOFT SKILLS

Collaboration
Creative thinking and problem solving
Resilience

WORKING PAPERS

“Assessing the Impact of COVID-19 on Trade: a Machine Learning Counterfactual Analysis.”

- In this paper I examine the impact of the COVID-19 pandemic on short-term export dynamics within the Colombian exporting sector, while also delving into the heterogeneity of this effect.
- Software: R
- Panel data of exporters (millions of observations)
- *R&R at Oxford Bulletin of Economics and Statistics*

“Product Survival in New Export Markets: The Role of Firm-Level Performance and Market Knowledge.”

- In this paper I introduce a recommendation algorithm to aid exporters in developing economies choosing new destination markets. Results show a 6% increase in survival probabilities and a significant 35% boost in product growth at the country level when adhering to the algorithm’s guidance.
- Software: R
- Panel data of exporters (millions of observations)

“The Economic Cost of a Referendum. The case of Brexit.”

- In this paper I investigate the economic consequences of the Brexit referendum on the British economy, prior to the formal departure from the European Union.
- Software: Stata
- Panel data of countries

PRESENTATIONS & CONFERENCES

2023 Leuven-Louvain Trade Workshops. Belgium (Online)
2022 Spanish Economic Association Conference (SAEe). Valencia, Spain
2022 Universidad Externado de Colombia. Bogotá, Colombia (online)
2022 European Trade Study Group (ETSG). Groningen, Netherlands
2022 American Economic Association (ASSA meeting). Boston, United States (Online)
2021 Leuven-Louvain Trade Workshops. Belgium (Online)
